GITA VIJ-SOLANKI

DIGITAL LEARNING DESIGNER | INSTRUCTIONAL DESIGNER

London, UK | 07989 407008 | gitavij@hotmail.com

Portfolio: https://gitavsolanki.github.io/ | Learning website: https://enjoylearningbygita.com

PROFESSIONAL PROFILE

Digital learning and curriculum design professional with 16+ years' experience in adult and further education. Designs structured, inclusive learning experiences from objectives and storyboards through to interactive content, practice activities and assessment. Combines a Level 5 Diploma in Education and Training with a BSc (Hons) in Computing, hands-on HTML/CSS/JavaScript development and experience using learning platforms and multimedia tools. Now focused on digital learning design and workplace learning.

SELECTED DIGITAL LEARNING PORTFOLIO PROJECTS

Think Before You Click | Workplace cybersecurity awareness

Designed and developed a browser-based micro-course using realistic phishing scenarios, clickable activities, tailored feedback, knowledge checks and a final assessment.
https://gitavsolanki.github.io/think-before-you-click/

Excel Essentials | Interactive beginner course

Created a six-lesson course combining animated GIF demonstrations, video, flashcards, practical worksheets, knowledge checks, progress tracking and a final skills challenge.
https://gitavsolanki.github.io/excel-essentials/

Understanding Data – Level 3 | Structured digital learning

Developed a digital learning module from a blended-learning storyboard, with sequenced outcomes, interactive activities, practical scenarios, knowledge checks and assessment.

CORE STRENGTHS

Instructional design and storyboarding • Learning objectives and sequencing • Interactive e-learning • Assessment design • Multimedia learning resources • Accessibility and inclusive practice • Blended learning • Learner feedback and continuous improvement

PROFESSIONAL EXPERIENCE

Digital Skills Tutor | Mary Ward Centre, London | June 2025–Present

- Design and develop structured digital learning programmes for adult learners, including Essential Digital Skills Entry 3, introductory computing and workplace-relevant skills.
- Designed a five-week Excel for Personal Budgeting programme with sequenced outcomes, demonstrations, practical activities and assessment opportunities.
- Create interactive practice assessments, online activities and accessible resources; refine materials using learner feedback and observed needs.

ICT Tutor | Newham Adult Learning Service | 2009–2025

- Independently designed ICT and digital skills programmes, including schemes of work, learning objectives, teaching materials and assessments.
- Delivered accredited digital skills provision, translating qualification criteria into accessible activities and assessment tasks.
- Monitored progression and adapted resources for varied abilities, ESOL learners and different levels of digital confidence.

IT Trainer | Age UK Hammersmith & Fulham | August 2022–May 2024

- Identified individual learning needs and produced accessible, step-by-step digital guidance and practical learning activities.

Level 3 Apprenticeship Delivery and Assessment | June–December 2019

Supported vocational learners and assessed progress against programme requirements. Employer and formal job title to be confirmed.

LEARNING TECHNOLOGIES AND DEVELOPMENT TOOLS

HTML, CSS and JavaScript • GitHub Pages • Moodle (content creation) • Microsoft 365 / Teams • Google Classroom • WordPress • Canva • Screen-recording and video tools • AI-assisted resource creation • Articulate Rise 360 and Storyline 360 (hands-on trial experience)
